

# You CAN Teach OG in Groups

Renee Greenfield & Heather Lufkin

AOGPE Conference April 4-5, 2019

# Agenda

1. Setting the stage for our work together
2. Bookend - Core Principles of OG
3. Overview of 3 Key Questions
4. Group Lesson Plan
5. Bookend - Core Principles of OG
6. Try Tomorrow? & Wrap-Up

## Core Principles of OG Approach

## Evidence

- Multisensory teaching/learning
- Diagnostic and prescriptive
- Direct and explicit instruction
- Systematic, structured, sequential phonics and linguistics
- Repetition, reinforcement, feedback, checking for understanding, spiraling back
- Build from known to unknown, simple to complex, concrete to abstract
- High levels of student engagement, including inquiry and project based pursuits
- Cognitive - teaching kids to think
- Emotionally-sound environment

# 3 Key Questions

when preparing to teach 2+ students using the OG approach

1. What should I consider when creating a pair/small group?
  2. How do I manage a group?
  3. What should I consider when I am planning an OG lesson for a pair/small group?
-

# 1. What should I consider when creating a pair/small group?

Use of formal and informal assessment to identify students with most closely aligned skills - initially across THREE key domains:

- phonological awareness
- letter ID and sound/symbol correspondence
- decoding/encoding

# Phonological Awareness

Phonological Awareness  
Skills Test (PAST)

CORE (Phonics phoneme

### Concept of Spoken Word

Tell the student you are going to play a game with words and colored chips. Use the sentence "Joey likes cake" as an example. As you say each word of the sentence, push a colored chip forward—one chip per word. Then ask the child to do it. Once he/she understands the skill, read each sentence to the student and ask him/her to repeat the sentence while pushing up one chip for each word. Put a check in the box to the right of the sentence if the child does it correctly.

1. Tom ran home. (3)
2. I have two pets. (4)
3. Did you eat lunch? (4)
4. What are you doing? (4)
5. Terry loves to play soccer. (5)
6. Yesterday it rained. (3)

# Letter Identification & Sound/Symbol

Once you've gathered data from formal and informal assessments, make group composition decisions with these considerations:

- skills
- learning profile (including anxiety and attention)
- exposure to OG
- interpersonal/personalities

## 2. How do I manage a group?

***Golden Rule: If you plan well, groups do well.***

Said another way: Your planning dictates how well you'll be able to manage a group and how successful kids will be with content.

Said a different way: If you manage your planning and anticipate needs, you won't have to manage kids' behaviors.

# Other Management Considerations

- Teach/explain/model behavioral expectations - from the outset, including posted procedures and schedules
- Directly teach procedures/routines and hold students accountable
- Integrated use of positive self-talk techniques (mantras/raps)
- Use of a workboard/centers
- Do not expect students to work together, or to know what to do when your attention is elsewhere - you must teach them what to do!
- Integrated motivation plans
- Until you can manage a group, you cannot play games!

# How to manage yourself!

- Ongoing data collection; create/use structures written out in your LP to allow for quick recording of students' skills and needs
- Use the "future planning" section in your LP - to capture your diagnostic thinking
- Use a timer and be a realist!
- Simultaneous independent work planned ahead (i.e., review deck of phonograms, while teacher works with one; LWs practice; each kid has their own deck)

### **3. What should I consider when I am planning an OG lesson for a pair/small group?**

- a. Time
- b. Organization of teacher/student materials
- c. Scope/sequence
- d. Data collection and ongoing monitoring
- e. Structure of the lesson plan template

## a. Time

- Experiences in public school settings tends to dictate 30-minute blocks; clear break between decoding/encoding
- We are realists! - Day 5 can reinforce through more games, and/or planning that 2 full lessons will actually happen every week (snow days, PD, meetings, etc.)
- Use a timer!

## b. Organization of T/S materials

- Materials ready-to-go; multiple sets per/kid
- Teacher notebook
  - Lesson plans
  - Tab per student (assessments, level sheets, etc)
- Student reference notebooks
  - Organized by concepts, syllable division patterns, LWs, spelling agreements, spelling generalizations, etc.
  - Ideally travels from tutoring/classroom work - support reading and spelling in the context of general education

## c. **Scope & Sequence**

- Mapped scope/sequence
- Decisions about mastery - 95%+
- Varying pacing based on students' levels of mastery - pairing independent work while you work with one around mastery/speedbumps

## d. Data Collection & Ongoing Monitoring

- OG level sheets - one for each student
- Use of district-based measures to monitor skill progress (beyond the BAS)
- Note-taking with the lesson plan template
- Students track their own data

## **e. Structure of LP template**

- Clear delineation/individualization for each student
- Suggested guidelines for time per component
- Use students and their lives as integral parts of your content
- Oral Reading Example - The Goblin

# Group Lesson Plan - Sam + Josh

1. Identify a partner
2. Review the Sam/Josh LP - view videos
3. Think/reflect/critique
4. Decide what other ways you could support EACH component; How else could the component be addressed?
5. Examine the core principles of OG - have them been met?

## Core Principles of OG Approach

## Evidence

- Multisensory teaching/learning
- Diagnostic and prescriptive
- Direct and explicit instruction
- Systematic, structured, sequential phonics and linguistics
- Repetition, reinforcement, feedback, checking for understanding, spiraling back
- Build from known to unknown, simple to complex, concrete to abstract
- High levels of student engagement, including inquiry, projects, & personal connections
